

National Aeronautics and Space Admin.

§ 1206.100

to providing information necessary for preliminary engineering, clearinghouses can make useful inputs to the development of environmental impact statements, as well as in reviewing draft statements. Thus, consultation at the earliest stage in planning can have substantial payoffs in installation development.

2. Clearinghouses will be afforded a minimum time of 30 days in which to review and comment on a proposed project and a maximum time of 45 days in which to complete such review.

3. The minimum information to be provided to the clearinghouse will consist of project description, scope and purpose, summary technical data, maps and diagrams where relevant, and any data which would show the relationship of the proposed project or action to applicable land use plans, policies, and controls for the affected area.

4. Establish procedures for notifying clearinghouses of the actions taken on projects, such as implementation, timing, postponement, abandonment, and explaining, where appropriate, actions taken contrary to clearinghouse recommendations.
